BEANGAL BOARD – Protection for Professionals

At a thickness of 5x standard builders paper, is the toughest protection you can get for the flooring on your jobsite. Gutster is a brand that is know to be tough, and our world class Bengal Board is no different! Because Bengal Board is breathable, it allows floors to continue to cure while providing extremely durable protection. Our intuitive formula is highly spill resistant – making all those paint accidents, mud from foot traffic, and so much more – a thing of the past! Bengal Board is the best way to tell you and your clients that you care for their floors.
